SKILLS

React

library for building user interfaces

Redux / Redux Toolkit

state container for applications

TypeScript

strongly typed language based on JS

JavaScript

language for web application interactivity

Rest API

application programming interface

TDD

development application through testing

Storybook

environment for developing a library of UI

Git

application version control system

Material-UI

library of components for the UI

HTML5

document markup language

CSS3

document style language

SCSS / SASS

CSS-based metalanguage

English

A2 in progress

ABOUT ME

I'm a frontend developer with experience developing the visible part of web applications. The main technologies of my work are React, Redux and TypeScript. Every day I improve my skills in this direction and plan to expand them with new technologies, such as React Native and Angular. I'm always open to offers. Tell me more about your needs.

EXPERIENCE

Since 2022 / Frontend developer / Part-time

- organization of architectural solutions (UI, BLL, DAL);
- development of web applications, tests;
- search and correction of errors in the code;
- transfer of class components to functional, from JS to TS;
- improving application performance;
- work with the server (CRUD operations).

My projects as frontend developer:

- LEARNING CARDS - An application to learn anything
stack: React, Redux Toolkit, TS, Axios, Formik, MUI, SASS
- TODOLIST - Task manager
stack: React, Redux Toolkit, TS, Axios, Formik, MUI, TDD
- SOCIAL NETWORK - Online platform for communication
stack: React, Redux, TS, Axios, Redux-form

03.2019 - 01.2023 / Head of design sector / Full-time

- monitoring the work of employees and setting tasks;
- development of a design standard in the company;
- development of the TS section of design documentation for retail facilities using AutoCAD software;
- work with technical legal documentation;
- interaction with customers and equipment suppliers;
- passing state examinations.

EDUCATION

2022 / IT-INCUBATOR /

Frontend developer (React, Redux, TS, JS, Rest API, TDD)

2009 - 2015 / A.D.Sakharov ISEU /

Nuclear and radiation safety engineer
