# Sergey Hmurovich

## Frontend developer

## CONTACTS

Minsk, Belarus

+375297374777

ksn_i777@mail.ru

## SKILLS

**React**
library for building user interfaces

**Redux / Redux Toolkit**
state container for applications

**TypeScript**
strongly typed language based on JS

**JavaScript**
language for web application interactivity

**Rest API**
application programming interface

**TDD**
development application through testing

**Storybook**
environment for developing a library of UI

**Git**
application version control system

**Material-UI**
library of components for the UI

**HTML5**
document markup language

**CSS3**
document style language

**SCSS / SASS**
CSS-based metalanguage

**English**
A2 in progress

## ABOUT ME

I'm a frontend developer with experience developing the visible part of web applications. The main technologies of my work are React, Redux and TypeScript. Every day I improve my skills in this direction and plan to expand them with new technologies, such as React Native and Angular. I'm always open to offers. Tell me more about your needs.

## EXPERIENCE

**Since 2022 / Frontend developer / Part-time**
- organization of architectural solutions (UI, BLL, DAL);
- development of web applications, tests;
- search and correction of errors in the code;
- transfer of class components to functional, from JS to TS;
- improving application performance;
- work with the server (CRUD operations).

My projects as frontend developer:
- LEARNING CARDS - Application for learning something
    stack: React, Redux Toolkit, TS, Axios, Formik, MUI, SASS
- TODOLIST - Task manager
    stack: React, Redux Toolkit, TS, Axios, Formik, MUI, TDD
- SOCIAL NETWORK - Online platform for communication
    stack: React, Redux, TS, Axios, Redux-form

**03.2019 - 01.2023 / Head of design sector / Full-time**
- monitoring the work of employees and setting tasks;
- development of a design standard in the company;
- development of the TS section of design documentation for retail facilities using AutoCAD software;
- work with technical legal documentation;
- interaction with customers and equipment suppliers;
- passing state examinations.

## EDUCATION

2022 / IT-INCUBATOR /
Frontend developer (React, Redux, TS, JS, Rest API, TDD)
2009 - 2015 / A.D.Sakharov ISEU /
Nuclear and radiation safety engineer
